I urge you to reconsider the decision to close the post office branch in Delaware Ave in Albany, ny 12209. This PO is an absolutely critical resource for a pedestrian focused neighborhood that includes a large number of senior citizens, blind and disabled residents who do not drive and rely on this PO. It's also a terrible shame that Delaware ave was undergoing a major reconstruction during the time the closure decision was made. The branch's use was unnaturally reduced during this reconstruction, and now that it's done we lose an important and vital neighborhood resource. I very much hope this decision can be reversed.
Thanks for your consideration.
